

THURSDAY 9 AUGUST 2018

08.30 Registration - Tea and Coffee

Session 1

Chair: Dr Pablo Silveira

08:50 Professor David Handelsman, ANZAC Research Institute

Welcome

08:55 Professor Stephen Simpson, Charles Perkins Centre

Welcome

09:00 Professor Ken Shortman, Immunology, Walter + Eliza Hall Institute of Medical Research

Enhancing Antibody Responses by Targeting Vaccine Antigens to Clec9A on Dendritic Cells

09:30 Professor Franca Ronchese, Immune Cell Biology, Malaghan Institute of Medical Research

Role of Dendritic Cells in T Helper Cell Differentiation and Allergic Immune Responses

10:00 Ms Kate Chen, Dendritic Cell Research, ANZAC Research Institute

Characterisation of the Immunoregulatory Function of the CD300e Molecule

10.30 Professor Barbara Fazekas de St Groth, Discipline of Pathology, The University of Sydney

Treg-DC Interactions

11.00 Morning Tea

Session 2

Chair: Prof Barbara Fazekas de St Groth

11.30 Professor Kathryn Wood, Professor of Immunology, Nuffield Department of Surgical Sciences

Cell Therapy – Applications of Treatment

12.15 Professor Phil Darcy, Cancer Immunotherapy, Peter MacCallum Cancer Centre

Development of New Strategies for Enhancing CAR T Cell Therapy for Cancer

12.45 Associate Professor Alex McLellan, Department of Microbiology & Immunology, University of Otago

T Cell Engineering for Adoptive Cell Therapy

13.15 Lunch

Session 3

Chair: Prof Mark Hogarth

14.15 Dr Slavica Vuckovic, Institute of Haematology, Royal Prince Alfred Hospital

Dissecting the Heterogeneity in Terminal Effector CD8+T Cells in Multiple Myeloma

14.45 Professor Jose Villadangos, Department of Microbiology & Immunology, Peter Doherty Institute

Regulation of Dendritic Cell Development and Function by the Innate Immune System

15.15 Dr Xinsheng Ju, Dendritic Cell Research, ANZAC Research Institute

CD83: A Novel Therapeutic Antibody Target for Lymphoma

15.45 Afternoon Tea

Session 4

Chair: A/Prof Georgina Clark

16.00 Professor Ranjeny Thomas, Diamantina Institute, The University of Queensland

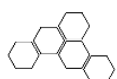

Targeting Dendritic Cells for Antigen-Specific Immunotherapy

16.30 Professor Rod Dunbar, Biological Sciences, The University of Auckland

Networking for DCs

17.00 Close - Drinks & Canapes @ The Grandstand

PROUD SPONSORS:

ANZAC
RESEARCH INSTITUTE

Lonza
